

DAAD-Offers for Alumni

The DAAD offers a number of services to its former scholarship holders (alumni) in order for them to maintain and establish contact to other alumni as well as German universities and to broaden their professional knowledge. Use these opportunities to stay in touch with Germany and the DAAD:

- **Website**

You will find news and service offers for alumni at a glance under www.daad.de/alumni. Log on to the Service Area for Alumni and update your contact data, subscribe to a newsletter or get a free webmail address (@daad-alumni.de).

- **Alumni Magazine *DAAD Letter***

The *Letter* is published three times a year in German and English and is free of charge for alumni and current scholarship holders.

- **Alumni Events**

Upon application, the DAAD may provide grants towards alumni events organized by alumni clubs, individual alumni, the DAAD network or German diplomatic missions abroad.

The DAAD organizes thematic meetings worldwide and supports alumni seminars organised by German universities.

- **Financial Support for Alumni Clubs**

The DAAD assists in founding an alumni club and offers financial support for the organisation of thematic events and for publications.

- **Alumni Special Projects**

Scientists and executives from developing countries who have been trained in Germany may receive further training at a German university and have the opportunity to attend an international trade fair or specialist forum to make contact with potential research and business partners.

- **Re-invitation Programme for Short-term Research Visits**

Grants offer former scholarship holders the opportunity to carry out research and working projects in Germany for up to three months and maintain their academic and professional contacts.

- **Scientific Literature Programme**

Former one-year scholarship holders from developing countries and from the countries of Southeastern and Eastern Europe can apply once a year for specialist literature to help them advance their academic knowledge and qualifications.

- **Equipment Donations for Developing Countries**

Scientists and academics from universities in developing countries may apply for equipment for specific research and teaching projects.
