

CLAP Africa

Climate research Alumni and Postdocs in Africa Funding and Networking for Future Leaders in Climate Research and Protection

Climate change will have a significant impact on natural and human systems in Africa. A better understanding of the future effects of climatic changes is crucial for African societies to find sustainable and suitable responses.

CLAP Africa brings high-potential African researchers in climate change research and protection together with African alumni of German funding initiatives. It seeks to catalyze uptake and use of research outputs through a vibrant, highly connected network to facilitate the development of regional solutions.
